WORKSHOP ON MOBILE APP DEVELOPMENT

Innovation And Entrepreneurship Development Centre (IEDC) in association with Computer Science and Engineering Department conducted a workshop for all IEDC members of Royal College of Engineering and Technology on 27th November 2021 at SDPK Lab, RCET. The Program was coordinated by Ms. Neethu PR(AP,AD&IEDC Convener) and Ms. Shefina (AP,ECE & IEDC Department coordinator).The workshop aimed to improve their technical knowledge in mobile app development.

Total Number of Students attended: 52 no...

A brief report of the proceedings during both these days is as follows:

Dr. Rasmi A, Head of the Department of Computer Science and Engineering, welcomed the students to the workshop and introduced the Talrop Steyp team Mr. Dinoj C, Technology Head, Steyp and Avin Preraj, Senior Software Engineer, Steyp.

The entire workshop could be divided into two sessions

Session 1 was a theory session conducted from 10.00 AM to 12.10 PM. Mr. Dinoj introduced the audience to the basics of Application Development using Android Studio. They also demonstrated how to install Android Studio for Windows and gave a tour of the Interface. They also explained about the basics of HTML and JavaScript. The participants were also familiarized with concepts of Activities and Lifecycle of Activities.

Session 2 was a practical session conducted from 1:00 PM to 3:45 PM. In the Computer Laboratories the team helped the participants set up Android Studio on the devices. Layouts for the user interface were discussed. The team explained about the project that they already created.

At the end of the workshop the team gave the link of sample project that they created and asked the students to download and run the application. As the time was limited, the students were given the opportunity to call them at any time if they are having any doubts. The workshop concluded at 3.45 PM.

Company's Profile

Steyp is an EdTech company, a beginning of Digital University for industry 4.0, where one can find the relevant courses to upgrade skills from the top experts and gear up for the future advancements in technology, a company incubated and accelerated by Talrop. Steyp understands the existing and upcoming job opportunities in the technology field and is on a mission to tackle

the issues of unemployment by introducing job oriented education system through which we systematically prepare students for jobs in the technology field and to become tech-entrepreneurs.
